

Dr. Carlos Bringuier, Cuban patriot, lawyer, refugee and American businessman, condensed into 192 fact filled pages the gruesome story of the assassination of President John F. Kennedy, as recorded in the undisputed testimony of the eye witnesses, doctors, secret service and FBI men.

Because so much absolute trash has been written about this tragic event we felt the time had come for the truth to be stated in concise, forthright manner. It is not our purpose to rehash the assassination. Rather, on this, the sixth anniversary of our Presidents assassination, we dedicate ourselves to the task of setting the record straight that our posterity may know the truth, gruesome though it may be.
